## Which fertilizer? Osmocote, Miracle Gro or Both?

**Osmocote** is the planters' plant food. An all-in-one solution for the serious gardener. One application contains 11 essential nutrients and feeds up to 6 months. Works with virtually all plant varieties and growing conditions. Each granule is coated with a unique resin that controls nutritional release according to soil temperatures and water. In cool weather, less fertilizer is released and more fertilizer is released in the heat of the summer.

Plants get what they need, when they need it.

**Miracle Gro All Purpose Plant Food** mixed with water also is a popular product. Due to the dilution mixing process, it needs to be applied at least once a week to maintain the beautiful plants you grow.

**Should you use both? Answer: YES!** You can use Osmocote for all season application and add **Miracle Gro Bloom Booster** every 3 weeks to maintain beautiful flower growth. For season long ease use Osmocote with a boost of Miracle Gro Bloom Booster every 3 weeks to have beautiful flowers all season long.
